

# Kindergarten Education Scheme

## School-based Learning Activity of Chinese Culture

### Display Form

School: TWGHs Tin Wan (1996-1997 Directors) Kindergarten

2022-2023 School Year

Grade Level: K1

### Name of Activity

National Flag Hunt

### Objectives

- Help children become familiar with the distinctive features of the Chinese national flag.
- Distinguish and identify the Chinese national flag.

### Brief Description

Our teachers illustrated the concept of National Day and the Chinese national flag with picture. By asking questions like "What colour is the flag (red)?" and "What patterns are shown on the flag (stars)?", students gained a deeper understanding of the flag's unique characteristics. During our group activities, we set the stage for an exciting flag hunt. A collection of paper bricks, each bearing a different country's national flag, was placed on the table. Children walked around the table following the music. When the music stopped, they were required to follow the teacher's instructions to take the correct national flag corresponding to the country mentioned.

### Record of Activity (E.g. Children's Work / Photos / Videos of the activity)
