

# Kindergarten Education Scheme

## School-based Learning Activity of Chinese Culture

### Display Form

School: TWGHs Tin Wan (1996-1997 Directors) Kindergarten

2022-2023 School Year

Grade Level: K2

### Name of Activity

Making Mid-Autumn Lanterns

### Objectives

- Introduce the traditions and customs of Mid-Autumn Festival.
- Enhance the artistic abilities of our students.

### Brief Description

With the Mid-Autumn Festival around the corner, our teacher led our children to explore the festival celebrations. Our teachers played the EVI educational video "Understanding the Mid-Autumn Festival" to serve as a delightful refresher and reinforce their knowledge about Mid-Autumn festival. Teachers displayed a real lantern and asked questions such as "How is the lantern traditionally used?" and "When and why do we play with lanterns during this special festival?" to enhance their knowledge of the festival. Students were then provided with materials and guidance needed to craft their very own Mid-Autumn Festival lanterns, enabling our children to share with their families on the day of the festival.

### Record of Activity (E.g. Children's Work / Photos / Videos of the activity)
