

# Kindergarten Education Scheme

## School-based Learning Activity of Chinese Culture

### Display Form

School: TWGHs Tin Wan (1996-1997 Directors) Kindergarten

2022-2023 School Year

Grade Level: K2

### Name of Activity

Exploring the Effects of "Embossing & Debossing Stamps"

### Objectives

- Introduce the world of "Embossing & Debossing stamps", with a particular emphasis on movable-type printing.
- Enhance children's exploratory skills.
- Enhance children's observatory skills.

### Brief Description

The thematic picture book "King Who Loves to Stamp" features a king who possesses a variety of stamps with a clear detail on their unique purposes. Following the story, the teacher introduced the ancient Chinese practice of movable-type printing. Then the teacher and students explored different types of stamps, including embossing and debossing stamps. During the exploration, students were encouraged to closely observe the stamps and identifies the distinctions between embossing and debossing stamps.

### Record of Activity (E.g. Children's Work / Photos / Videos of the activity)
