

Kindergarten Education Scheme

School-based Learning Activity of Chinese Culture

Display Form

School: TWGHs Tin Wan (1996-1997 Directors) Kindergarten

2022-2023 School Year

Grade Level: K2

Name of Activity

Traditional Chinese Market: Folk Toys and Games

Objectives

- Introduce the intriguing world of Chinese folk toys and games.
- Enhance children's fine motor skills.
- Enhance children's gross motor skills.

Brief Description

The teacher used the thematic picture book "King Who Loves to Stamp" as a gateway to introduce the world of Chinese folk market for our students. Students discovered a variety of stalls and activities including candied hawthorn sticks, seeking divination, painting ink-wash masterpieces, playing the pitching game, spinning traditional wooden tops, and mastering the five-stone game. As the students immersed themselves in these traditional games, they learnt more about the daily lives of ancient Chinese communities.
