

# Kindergarten Education Scheme

## School-based Learning Activity of Chinese Culture

### Display Form

School: TWGHs Tin Wan (1996-1997 Directors) Kindergarten

2022-2023 School Year

Grade Level: K1

#### Name of Activity

Sweeping Graves during Qingming Festival

#### Objectives

- Introduce the customs of Qingming Festival and cultivate their respect for their ancestors and elders.
- Enhance children's fine and gross motor skills.

#### Brief Description

Our teachers presented images of sweeping graves during Qingming Festival. In our interactive gross motor activity, we invited our children to simulate the act of sweeping graves. Each child began with selecting a flower from a designated point, then they required to face a series of challenges designed to enhance their coordination and motor skills. They must gracefully step over paper bricks, maintained balance while walking a beam, and simulated crossing a bridge. Finally they placed the flower in the basket, symbolizing a touching tribute to their ancestors.
