

Kindergarten Education Scheme

School-based Learning Activity of Chinese Culture

Display Form

School: TWGHs Tin Wan (1996-1997 Directors) Kindergarten

2022-2023 School Year

Grade Level: K1

Name of Activity

Acrobatic Adventure

Objectives

- Introduce the fascinating realm of traditional Chinese acrobatics, with a special focus on the art of spinning plates.
- Enhance children's hand-eye coordination skills.

Brief Description

During our Chinese Cultural Week, our teacher displayed the spinning plates and discussed the methods of playing spinning plates. Teachers introduced that spinning plates are one of the traditional Chinese acrobatics performance. To deepen their understanding, we played the video with the class. Each child was then provided with their own spinning plate and a slender rod. They tried to achieve the delicate balance necessary to keep the plates gracefully twirling and spinning.
