Name of Activity

Dic Dic Chang Chang Playground – Cantonese Opera X Children’s Interactive Theatre

Objectives

- By placing children at the core of our performances in Cantonese opera and interactive theater, this unique activity aims to introduce them to the captivating world of Cantonese opera, a traditional Chinese performing art.
- Through theatrical techniques and interactive elements, we encourage children to actively immerse themselves in the cultural richness of Cantonese opera.

Brief Description

We were honoured to welcome "One Table Two Chairs Charitable Foundation" to present a special Cantonese opera performance designed specifically for children at our school. The performance unfolded with dynamic storytelling segments, bringing to life a colourful array of characters. Students had the opportunity to acquaint themselves with the distinctive costumes, intricate movements, and fundamental techniques of Cantonese opera characters. Following the performance, our children engaged in an interactive game session, seamlessly blending play and learning. This interactive phase further deepened their understanding of traditional Chinese culture and art, particularly the captivating world of Cantonese opera.
