Name of Activity

Have folk dance together

Objectives

- Learn about the characteristics of Chinese ethnic groups
- Cultivate children to appreciate the culture of Chinese folk dance

Brief Description

There are many different ethnic groups represented in the picture book *Journey of Time*, and children were curious about the ethnic groups in China. Thus teachers and children learnt about the lifestyle of different traditional ethnic groups in China to deepen children's knowledge of their life and culture. Teachers and children also danced folk dances along the music in order to have a better experience of the life and traditional activities of Chinese ethnic groups.
